Reading Text

A Day in My Life

My name is Youssef, and I am a science student at the university. My daily routine is quite busy but well-organized. I usually wake up at 6:30 in the morning. The first thing I do is brush my teeth and take a quick shower. Then, I have breakfast with my family. I often drink milk and eat bread with olive oil. After breakfast, I get dressed and take the bus to the university. My classes start at 8:00 a.m. and finish around 12:45 p.m. I study different subjects such as mathematics, biology, and English. During the break, I sometimes chat with my friends or have a snack at the cafeteria. In the afternoon, I usually go back home, have lunch with my family, and take a short nap. Later, I do my homework, help my younger brother with his lessons, and sometimes watch a documentary on TV. In the evening, I have dinner at 8:30 and then prepare my bag for the next day. I rarely go out at night because I prefer reading or listening to music before I sleep. I always go to bed around 11:00 p.m. because I have to wake up early the next morning. Although my day is full, I like it because it helps me stay organized and productive.

The Present Simple tense is used to express daily routines, habits, and general truths.

Affirmative form: Subject + base verb (+ s/es for he, she, it)

Examples: I wake up at 7 o'clock. / She goes to university every day.

Negative form: Subject + do/does + not + base verb

Examples: I do not (don't) eat breakfast at 6 a.m. / He does not (doesn't) like coffee.

Interrogative form: Do/Does + subject + base verb?

Examples: Do you wake up early? / Does she study English?

Use 'do' with I/you/we/they and 'does' with he/she/it.

In questions and negatives, the main verb stays in the base form (without -s).

Practice: Complete the sentences using the correct form of the verb in brackets.

Grammar Focus 2 – Adverbs of Frequency and Time Expressions

Adverbs of frequency show how often something happens. They are usually **placed before** the main verb and **after** the verb 'to be'.

Examples: I always have breakfast at 7:00. / She is never late for class.

Meaning: *always = 100%, usually = 80%, often = 60%, sometimes = 40%, rarely = 10%, never = 0%*

Use of Adverbs of Frequency in Sentences:

1. With regular verbs:
- **Affirmative:** The adverb goes before the main verb.
  Example: I usually wake up early.
- **Negative:** The adverb goes before the main verb and after 'don't/doesn't'.
  Example: He doesn't often eat breakfast.
- **Interrogative:** The adverb goes after the subject and before the main verb.
  Example: Do you always study in the evening?

2. With the verb 'to be':
- **Affirmative:** The adverb goes after the verb 'to be'.
  Example: She is always on time.
- **Negative:** The adverb goes after 'isn't/aren't'.
  Example: He isn't usually late.
- **Interrogative:** The adverb goes after the subject.
  Example: Are you often tired in the morning?

Practice: Rewrite the sentences correctly using the adverb of frequency in the right place.

1. I am late for class. never
2. He drinks coffee in the morning. usually
3. They don't go out on weekdays. often
4. Is she happy on Mondays? always
5. We are tired after school. sometimes
